SR 99/120 Connector update: East Woodward Avenue opens on limited trial basis

East Woodward Avenue in Manteca, which has been closed at the intersection with Moffat Boulevard for major improvements as part of the State Route 99/120 Connector project, will reopen on a limited trial basis. The state Public Utilities Commission and Union Pacific Railroad gave SJCOG and the City of Manteca permission to reopen the road 6 a.m. to 6 p.m. daily beginning Monday, Feb. 9, as long as fog does not reduce visibility and there is no other risk to public safety. Flaggers will be present during open hours to ensure public safety.

Visit the project [website](#) for project details, and to sign up for email and text updates.
