The Regional Transportation Plan & Sustainable Communities Strategy (RTP/SCS) is an ambitious regional plan. Whether you get around by car, on transit, walk or ride a bike, the Plan works to connect the San Joaquin County region over the next 20+ years.

Encourages the efficient location of housing and jobs in high quality transit areas in the region through focused transportation investments.

Enhances the environment for existing and future generations by encouraging infill development and maintaining agricultural vitality.

Supports a strong regional economy by investing in goods movement infrastructure.

Did You Know? The RTP/SCS...

1. Is a roadmap for transportation and land use planning in San Joaquin County.
2. Is an investment plan that provides a comprehensive look at future transportation needs in the region.
3. Is a long range plan that looks out over 20-plus years but is updated every four years.
4. Is based on local planning efforts that have taken place in communities around San Joaquin County.
5. Includes projected population and housing levels for San Joaquin County’s 7 cities and unincorporated areas.
6. Contributes to California state goals of reducing greenhouse gas emissions and miles driven on the road.
7. Sets goals that include maintaining agricultural vitality, offering more choices for getting where we need and want to go, supporting economic vitality, preserving the efficiency of the existing transportation system, and improving public health and safety.
8. Does not replace local general plans or community-specific plans.
10. Promotes a balanced transportation system by investing in the expansion of alternative transportation modes, while also improving capacity of existing highways and arterial roads.
