

**San Joaquin Valley
Senate Bill 1
Project Listing
March 2018**

Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017, invests \$54 billion over the next decade to fix roads, freeways and bridges in communities across California and puts more dollars toward transit and safety. SB 1 addresses a backlog of repairs and upgrades, while ensuring a cleaner and more sustainable travel network for the future. These funds will be split equally between state and local investments. California's state-maintained transportation infrastructure will receive roughly half of SB 1 revenue: \$26 billion. The other half will go to local roads, transit agencies and an expansion of the state's growing network of pedestrian and cycle routes. Each year, this new funding will be used to tackle deferred maintenance needs both on the state highway system and the local road system.

The following is just a partial listing of projects that San Joaquin Valley (SJV) cities and counties have identified for construction in 2017-18 using the State's SB 1 estimates. Where available, specific dollar amounts by project have been included. An estimate of total revenues by county is also provided at the beginning of each project list. In sum, SJV cities and counties stand to receive nearly \$205 million for local road repair and maintenance projects from SB 1 in 2017-18.

Note: This does not include funding for state highway projects.

San Joaquin Valley SB 1 Project Listing

Table of Contents

This brochure provides just a partial listing of projects that San Joaquin Valley (SJV) cities and counties have identified for construction in 2017-18 using the State’s SB 1 revenue estimates. Not all jurisdictions have finished prioritizing their project lists given the new revenue source. An estimate of total revenues by county is also provided at the beginning of each project list. In sum, SJV cities and counties stand to receive nearly \$205 million for road repair and maintenance projects from SB 1 in 2017-18, not including state highway project funding.
