

**San Joaquin One Voice® Project Request**  
**City of Stockton Sustainability Plan 2022**

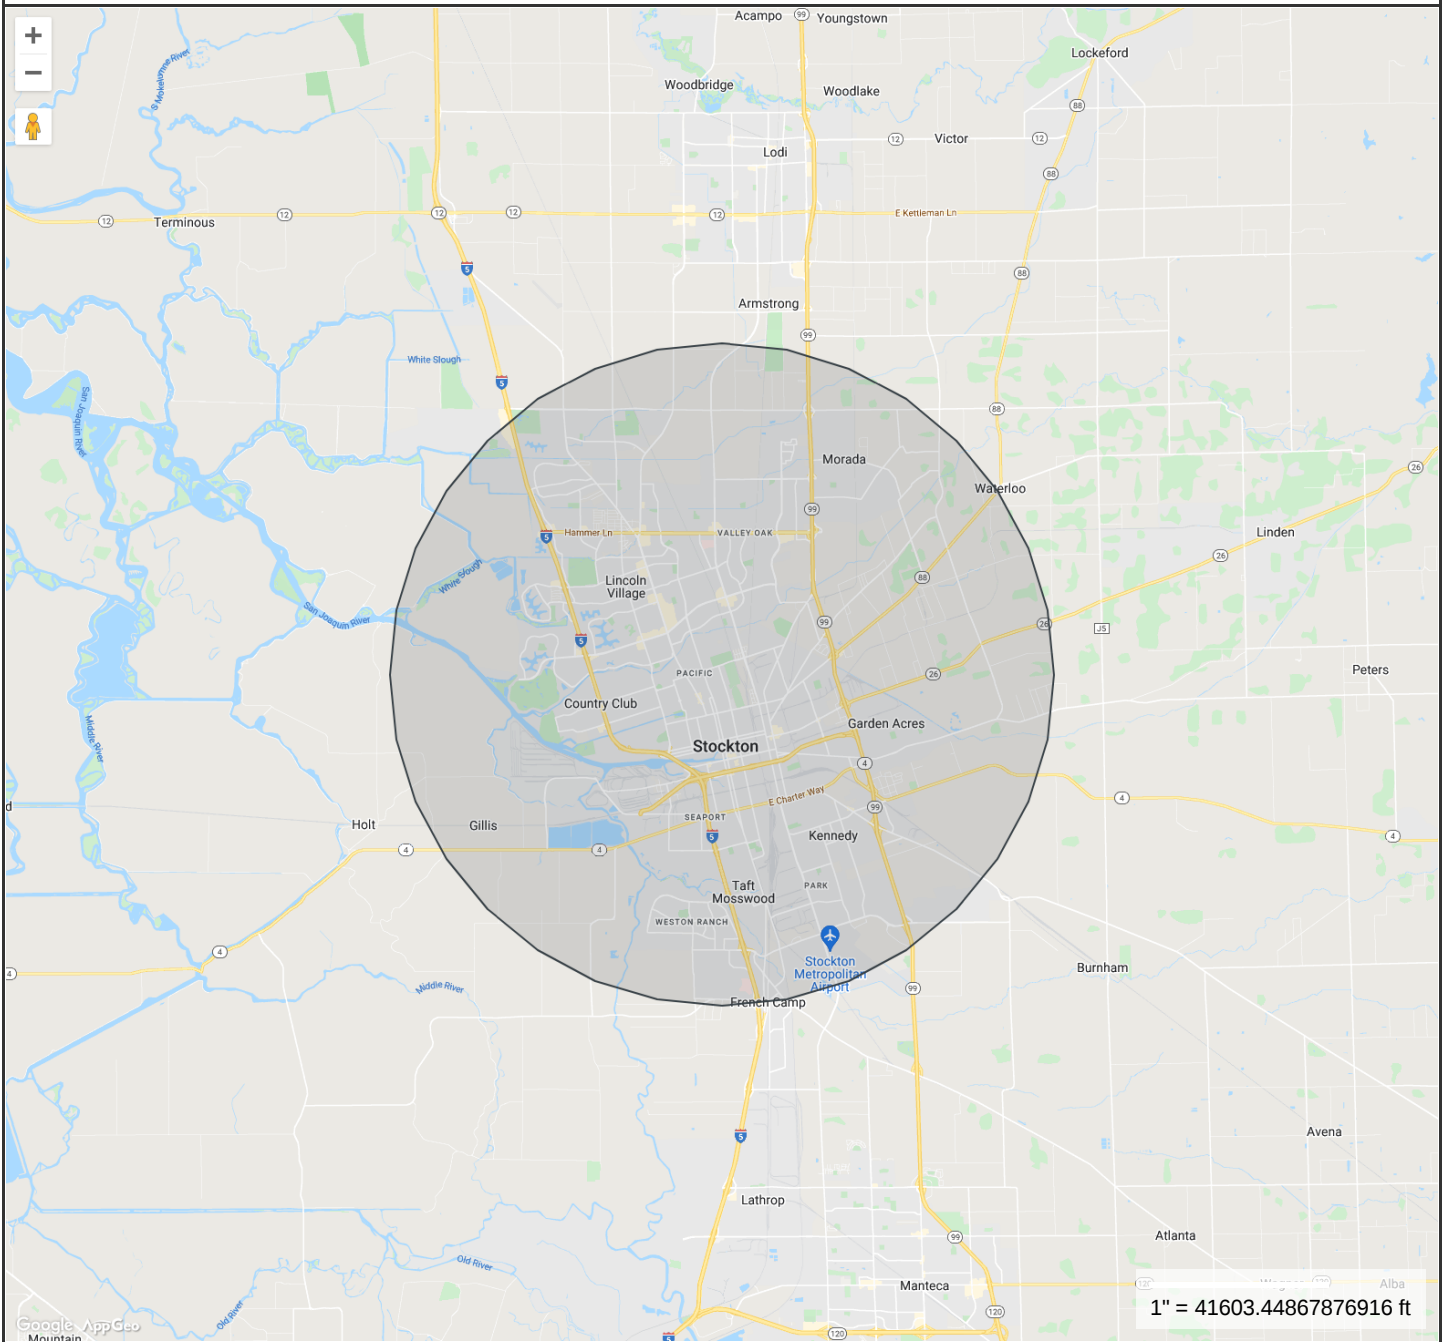

**Statement of Purpose:**

The City of Stockton is seeking \$1 million to develop a Sustainability Plan that will guide the City of Stockton toward being a leader in sustainability, innovation, and smart use of technology.

**Project Summary:**

This project will provide clear direction on sustainability policy, goals, and objectives to enable the City of Stockton to become a leading agency in sustainability. The Sustainability Plan will focus on key areas of transportation, renewable energy, SMART City information, and communication technologies. The plan will also identify key priority projects and help identify available funding sources. The plan will lay out a strategy to transition City facilities and assets to more sustainable energy systems, such as conversion of City fleet to electric vehicles, installing solar power at City-owned facilities, conversion to LED lighting, installing energy efficient HVAC systems, and low flow plumbing devices. The sustainability plan will also address the best use of fiber optic backbone infrastructure and movement toward smart City enabling technology.
