NOTES:

In accordance with California Government 6270.5., this document is available on the agency's website, www.sjco.gov and may be requested by the public at the SJCOG offices. This document is updated annually. For this document an enterprise system is a multidepartment system of record. This catalog excludes:

- (A) Information technology security systems, including firewalls and other cyber security systems.
- (B) Physical access control systems, employee identification management systems, video monitoring, and other physical control systems.
- (C) Infrastructure and mechanical control systems, including those that control or manage building HVAC controls and video security systems.
